# GUIDELINES FOR POSTER PRESENTATIONS

1. The objective of the poster presentations is a concise display of a single concept/technique.
  - The Conference Planning Committee will consider the following categories for poster presentations:
    - Basic science and/or clinical research
    - Clinical applications, techniques or tips
    - Laboratory applications, techniques or tips
    - Community oral health programs or grant projects
    - Strengthening the Network emphasizes interprofessional collaboration. Projects that describe clinical training for healthcare providers, oral health education to non-dental providers, or incorporating oral health curricula in primary care health education programs are encouraged.
2. All applications will be reviewed by the Conference Planning Committee.
3. All presentations will help to fulfill CDE maintenance hours.
4. A maximum of two authors/presenters will be permitted for each poster presentation. All presentations are conducted at individual poster stations.
5. Poster presentations should be placed on a foldable 3'x4' (36" x 48") tri-fold project tabletop board. Presentation boards should be able to stand without assistance.
6. No power outlets will be provided; presenters must have fully charged batteries that will last the duration of the presentations if a personal notebook computer is used. The use of sound devices of any type is prohibited.
7. The sale of materials or products is not allowed at any poster presentation and we discourage the use of commercial names in presentations. Advertising matter, commercial promotion, and solicitation of sales of any type are prohibited.
8. Drugs must be identified by their generic or chemical formula, rather than by commercial trade name.
